

STATEMENT

Introduction

DNV Business Assurance USA, Inc. (DNV) has been commissioned by the management of Almaviva S.p.A. to carry out an independent verification of its greenhouse gas (GHG) emissions relevant to the 2024 calendar year. Almaviva S.p.A. has sole responsibility for preparation of the data and external report. DNV, in performing our assurance work, is responsible to the management of Almaviva S.p.A. Our assurance statement, however, represents our independent opinion and is intended to inform all stakeholders including Almaviva S.p.A.

Verification Objective

The verification objective is to assess conformance with applicable verification criteria, including the principles and requirements of relevant standards or GHG programmes, within the scope of the verification related to the organization's 2024 GHG inventories, as described in the GHG emission report "QA-SP-000-0005 Rapporto di inventario GHG 2024 (Vers.2)" issued in June 2025 and the organization's GHG related controls.

Verification Scope

2024 GHG emissions inventory which include direct GHG emissions, indirect energy GHG emissions and other significant GHG indirect emissions (Category 3 - Indirect GHG emissions from upstream transportation and distribution of goods, employee commuting and business traveling and Category 4 - Indirect GHG emissions from products used by an organization, capital goods and emissions from waste disposal).

Verification Level of Assurance

The verification was conducted by DNV to a reasonable level of assurance with the eventual modifications reported in the below Verification opinion.

Materiality Level

Errors / omissions which represent, single or aggregated, the 5% of total emissions are considered material.

Verification Criteria

ISO 14064-1:2018: Greenhouse gases - Part 1: Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals
