

STATEMENT

Statement no.:
C656587

Initial certification date:
12 April 2024

Valid:
12 April 2026 – 11 April 2027

This is to certify that

ALMAVIVA S.p.A.

Via di Casal Boccone, 188/190 - 00137 Roma (RM) – Italy

and the sites as mentioned in the appendix accompanying this certificate

has been found to meet the applicable requirements related to the:

ISO 30415:2021(Diversity & Inclusion) Evaluation - Ed. May 2022

The final rating obtained is: 96/100

The Evaluation is applied to the following processes:

Analysis, design (including architectural), development, installation, testing and maintenance, hardware and software integration (products, IT structures and communication) of information systems, public interface systems and products (portals) in compliance with the requirements accessibility, integrated command and control communication systems including land and sea border surveillance systems through the use of active and passive sensors (radar, optical sensors), software products, multimedia applications and design and delivery of : call center services (Service Desk), assistance, functional, technical and operational management of information systems and network infrastructures; Disaster Recovery and Business Continuity services; integration services of IT and communication products and structures; solution and product development services: analysis, design, development, release of software products and application solutions for the banking and insurance market; application management services: maintenance and application assistance of software for banking and insurance applications; marketing, installation, assistance and maintenance services for third-party software products; specialist and basic classroom and remote training services in the ICT, management and education fields; management, organizational and thematic consultancy services on primary and support activities; specialist services: for electronic publishing, communication and document management; consultancy for accounting systems and website accessibility; services in the agricultural, territorial, environmental, agro-meteorological and agri-food sectors; services in the fields of defense and security; located according to customer needs. Storage service for computerized documents also on behalf of third parties

To assess how Organizations manage Diversity & Inclusion, DNV applies an ISO 30415 methodology framework utilizing a score model based on the ISO 30415 principles. Further details on specific scores awarded are provided within the related Evaluation Report.

Place and date:
Vimercate (MB), 12 May 2026

For the issuing office:
DNV - Business Assurance
Via Energy Park, 14, - 20871 Vimercate (MB) - Italy

Claudia Baroncini
Management Representative

Appendix to Statement

ALMAVIVA S.p.A.

Locations included in the certification are as follows:

Site Name	Site Address	Site Scope
ALMAVIVA S.p.A.	Via di Casal Boccone, 188/190 - 00137 Roma (RM) - Italy	Analysis, design (including architectural), development, installation, testing and maintenance, hardware and software integration (products, IT structures and communication) of information systems, public interface systems and products (portals) in compliance with the requirements accessibility, integrated command and control communication systems including land and sea border surveillance systems through the use of active and passive sensors (radar, optical sensors), software products, multimedia applications and design and delivery of : call center services (Service Desk), assistance, functional, technical and operational management of information systems and network infrastructures; Disaster Recovery and Business Continuity services; integration services of IT and communication products and structures; solution and product development services: analysis, design, development, release of software products and application solutions for the banking and insurance market; application management services: maintenance and application assistance of software for banking and insurance applications; marketing, installation, assistance and maintenance services for third-party software products; specialist and basic classroom and remote training services in the ICT, management and education fields; management, organizational and thematic consultancy services on primary and support activities; specialist services: for electronic publishing, communication and document management; consultancy for accounting systems and website accessibility; services in the agricultural, territorial, environmental, agro-meteorological and agri-food sectors; services in the fields of defense and security; located according to customer needs. Storage service for computerized documents also on behalf of third parties

Site Name	Site Address	Site Scope
ALMAVIVA S.p.A.	Via dello Scalo Prenestino, 15 - 00159 Roma (RM) - Italy	Analysis, design (including architectural), development, installation, testing and maintenance, hardware and software integration (products, IT structures and communication) of information systems, public interface systems and products (portals) in compliance with the requirements accessibility, integrated command and control communication systems including land and sea border surveillance systems through the use of active and passive sensors (radar, optical sensors), software products, multimedia applications and design and delivery of : call center services (Service Desk), assistance, functional, technical and operational management of information systems and network infrastructures; Disaster Recovery and Business Continuity services; integration services of IT and communication products and structures; solution and product development services: analysis, design, development, release of software products and application solutions for the banking and insurance market; application management services: maintenance and application assistance of software for banking and insurance applications; marketing, installation, assistance and maintenance services for third-party software products; specialist and basic classroom and remote training services in the ICT, management and education fields; management, organizational and thematic consultancy services on primary and support activities; specialist services: for electronic publishing, communication and document management; consultancy for accounting systems and website accessibility; services in the agricultural, territorial, environmental, agro-meteorological and agri-food sectors; services in the fields of defense and security; located according to customer needs. Storage service for computerized documents also on behalf of third parties

Site Name	Site Address	Site Scope
